www.caldwellcontracting.co.nz

Caldwell Contracting provides services designed to maximise the productivity, sustainability and profitability of every farming operation. We have the environment and your wallet in mind.

We are committed to operating at high standards at all times, and you can rely on our highly skilled and trained team to get your job done efficiently

Baling

We'll provide your total baling solution, whether it be mowing, tedding, raking, round balage, transport or the purchase and sale of grass, straw or hay, with plastic barrel wrap or net options, we can help.

Silage Harvesting

Caldwell Contracting operate modern and reliable gear to ensure your forage is harvested at its premium.

We provide a full spring crop harvesting service, mowing, tedding, raking, harvesting, transport and stacking. Our tractors run on low compaction trailers, We can also provide Dry Matter testing and Certified weighbridge.

We have the range of equipment necessary to meet your requirements. We can also assist with the purchase and sale of grass for silage.

Bulk Supplies / Cartage

We can supply and deliver the following

- * Post Peelings / Wood chip
- * Stock Feed Supplies
- * Gravel and Rock

We operate a modern fleet of truck and trailer units for bulk products such as silage, feed supplies, rock/gravel through to moving machinery. We have the equipment and drivers to move most things.

Very competitive rates, enquire today to find out more.

Earthworks

Often the winter months are a good time to catch up with lane maintenance and jobs that have been put to one side during the busy summer months. We have the experience to complete the job.

We can offer a full farm and dairy conversion - excavators, trucks, trailer, roller, leveller - all the gear required for a quality job from lane work to pond construction.

- *Drain digging
- *Pond Construction (FDE accredited)
- *Lane construction and maintenance
- *Building site earthworks

We also offer specialised equipment for land development as well as many more services to enhance your farming business. Its worth enquiring with us for ideas and options, that suit your budget

Muck Spreading

Don't Waste It, Spread It!

Effluent can be an expensive part of farming - but it doesn't have to be. Caldwell's have invested in quality drivers and gear, including an Umbilical Slurry system for emptying ponds. At the end of the season the ground is wet, there is no damage to lanes, gates or pastures using the Umbilical System.

Fast, Efficient and Cost Effective.

We also offer -

- * 4 Sealed Muck spreaders
- * Slurry Tankers
- * Pond Stirrer
- * Diggers and loader for loading out.

We also clean tunnel houses, herd homes, wintering pads, calf sheds, effluent ponds and weeping walls. Full clean out to replacing with new wood chip etc.

Solid or liquid muck spreading - we have it covered.
